it will continue. They know their success depends solely upon

make their intercourse with merchants, mutually and reciprocally
beneficial. They ask from merchants who visit St.

The Footpath and Highway; or,
WANDERINGS of an American in Great Britain,
in 1851 and '52. By Benjamin Morgan. This
volume embodies the observations of the author, made
during eight months wandering, as a correspondent
for American Journals; and as he traveled much on
foot, differs essentially from those on the same coun-
tries, by other writers.

New Themes for the Protestant Clergy;
CREEDS without Charity, Theology without Hu-
manity, and Protestantism without Christianity;
with Notes by the Editor on the Literature of Charity,
Population, Pauperism, Political Economy, and
Protestantism. The great question which the book dis-
cusses is, whether the Church of this age is what the
primitive Church was, and whether Christians—both
pastors and people—are doing their duty. Our author
believes not, and to our mind, he has made out a strong
case. He thinks there is abundant room for reform at
the present time, and that it is needed almost as much
as in the days of Luther.

READ THIS!! THE INTRODUCTION OF FILLEYS STOVES

Into Northern Missouri, to any extent, has been
in the last three years; since which time they
have been gradually increasing the manufacture
and sale of them; and although, owing to their
being light and smooth, and something new,
some little difficulty attended the sale and use
at first, yet by always making Stoves and Cas-
tings of the best quality of Scotch Pig and Mis-
souri Mountain Iron, they have proved to
withstand fire better than any other Casting
made in the western country. The furnace
castings and hollow-ware particularly, have
been superseded by it, wherever it has been
brought into use, and always given satisfaction.
Having lived here a number of years, and be-
ing permanently located here, purchasers can
rely on our guarantee as to the quality of the
article sold by us; and as to the operation of
our celebrated Prize-Premium Cook Stove, just
read the certificates of those who have used
them, and are using them now. And another
advantage a purchaser will have in buying a
St. Louis stove of us, he would not only be
getting a stove made of the best material in the
world, but he can at any time get an odd piece
or plate without any charge, by letting us know
that such is wanted, as all our stoves are war-
ranted, and, in case of imperfection, the article
will be promptly made good to the purchaser,
which he will not find the case with Cincinnati,
Chicago, Pittsburgh, and Eastern made Stoves,
as you cannot get any odd Pieces. Even if
they were warranted, it would be impossible to
get odd plates from such a distance.

We, the undersigned, having used the St.
Louis Stoves manufactured by G. F. Filley, of
St. Louis, and sold by CARTER W. BRYAN,
at Hannibal, Mo., take pleasure in recommend-
ing them to the public as superior in point of
draft, durability, economy, convenience and
ease of regulation, to any stove which we have

NEW COOK STOVES!! Persons wishing to buy stoves, should give us a call, and examine our new patterns of

This stove possesses advantages over common
stoves, in thickness of the plate, and improve-
ments in draft.

This stove was patented September, 1852,
and wherever they have been used, have given
general satisfaction. This stove weighs some
forty pounds more to the number than any other
stove ever brought to this city. The plates in
them are from one-half to three-fourths of an
inch in thickness. No. 1 weighs over 200
pounds. We warrant them all against fire.
These stoves have a Patent Hot Air Flue, which
carries the heat that is generated under the fire-
plate down the front part of the stove, between
two thick plates to the draft at the bottom of
the stove.
